## **DETAILED ACTION**

### ***Claim Objections***

Claims 7-8 and 17-18 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. In this case the x-ray film or the photostimulable phosphor sheet of claims 7, 8, 17 and 18 does not further limits the structure of the cassette. Specifically, the film or the photostimulable phosphor sheet of these claims can be infringed by prior art x-ray films or photostimulable phosphor sheets while the cassette of the independent claims is not. See MPEP 608.01(n), item III.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

---

A person shall be entitled to a patent unless—

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 7 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Anton et al. (US 5388818)

Regarding claims 7 and 17, Anton teaches an x-ray film which is dimensioned to received in a cassette (column 5 line 57, Anton teaches an identical x-ray film having 14" x 17" dimension).

Art Unit: 2882

Claims 8 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Oono et al. (US 4498005)

Regarding claims 8 and 18, Anton teaches a photostimulable phosphor sheet which is dimensioned to received in a cassette (column 4 line 63+, Oono teaches an identical photostimulable phosphor sheet having 14" x 17" dimension).

***Allowable Subject Matter***

Claims 1-2, 4-6, 11-12 and 14-16 are allowed over prior art.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claims 1 and 11, None of the prior art teaches or suggests a cassette having a rectangular cartridge body with a rectangular cover and at least two imaging plates which arranged in partial overlapping relation to prevent a loss of diagnostic information as claimed in independent claims 1 and 11.

***Response to Arguments***

---

Applicant's arguments with respect to claims 1-2, 4-8, 11-12 and 14-18 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2882

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
